

When each autopsy is completed, we send a letter to parents. Among other things, it informs them of the fact that about once each year, we bury remains in a plot at Oakbrook Memorial Park, 3007 Highway 25 North (just north of Greenwood). A single marker there honors the many families served by the Greenwood Genetic Center. Below is a map of the memorial park. For any questions, call during work hours (8 am – 5 pm) 1-800-939-1920 or 1-864-388-1700 and ask for Fetal Pathology.
