

A NEW YEAR, A NEW SEMESTER

It's January 2022!

I hope that everyone enjoyed a happy, restful Christmas holiday and is now ready for the new semester.

The fall passed so quickly, and our team enjoyed being on the road again. We have a terrific group of instructors in Dillon, Olivia and Marie, who all enjoyed working with you and your students. Many of you worked with Ashley LaVerdure the past two years, and I am very happy to tell you that she has re-joined our team!

It was a very good semester for the Outreach Program!

Fall 2021

- Total number of students: 2,998
- Number of Van trips: 28
- Number of Mobile Lab trips: 27
- Number of SC counties visited: 27
- High school visits: 43
- Middle school visits: 12

WE EVEN GOT TO BE PART OF SOME SPECIAL EVENTS!

The Helix Express joined GGC employees, friends and families at the Greenville Triumph soccer game. The Center was the featured non-profit organization at half-time of the October 1 game.

In December, we worked with the SC Department of Commerce, Horry-Georgetown Technical College, and other partners to host an Open House for area students, residents and business

leaders. It was a way to showcase GGC Education as it supports higher education, biotechnology, and careers in the life sciences.

SUMMER 2022 PROGRAMS

It's time to begin planning for the Teachers' Summer Course and Workshop and for the High School Summer Camp!

You would think that January is too early but it takes a great deal of thought, decision-making, and preparation for these opportunities. I hope you will be looking at your calendars and reserving time to spend with us in June.

We are hoping to add an off-site workshop and summer camp this year. Details will be forthcoming but at least, let me share the dates so you can make plans. Please keep checking the website for information.

Teachers' Workshop
Summer HS Camp

June 20-21 in Greenwood
July 11-14 in Greenwood

June 23-24 at another site to be determined
July 18-21 at another site to be determined

Looking forward to seeing you this semester! Stay in touch with us.
